

New Boston Transfer Station

Concrete and ceramic disposal

Currently the Transfer Station receives concrete materials, bathroom and kitchen ceramics and stone materials at no charge to the resident. In the past we have been able to give the material away as clean fill. Due to the difficulty of finding an appropriate disposal location in a timely manner and so that the storage capacity of the facility is not exceeded, adding these materials to the list as a demolition fee item will resolve this issue.

Concrete is already on the fee structure list. The only operational change will be closing the current dumping area on the west side of the property and requiring materials to be weighed and placed in demolition containers at the current "Category 1" fee of .07 cents per pound.

Electronics Disposal / recycling fee adjustment

Television 10.00 to 12.00

Monitor 5.00 to 7.00

Towers 3.00 to 4.00

Microwave 5.00 to 7.00

Assorted

Electronics 3.00 to 4.00

Materials by weight .09 to .11

These adjustments will cover the cost of roll off from East coast Electronics current fee of \$785.00
Price was raised last year from \$650.00.

This fee covers trucking, storage trailer and disposal.
