Re: Grant No.EMW-2013-FO-01988

Dear Mr. Macdonald:

On behalf of the Federal Emergency Management Agency (FEMA) and the Department of Homeland Security (DHS), I am pleased to inform you that your grant application submitted under the FY 2013 Assistance to Firefighters Grant has been approved. FEMA's Grant Programs Directorate (GPD), in consultation with the U.S. Fire Administration (USFA), carries out the Federal responsibilities of administering your grant. The approved project costs total to \$13,200.00. The Federal share is 95 percent or \$12,540.00 of the approved amount and your share of the costs is 5 percent or \$660.00.

Before you request and receive any of the Federal Grant funds awarded to you, you must establish acceptance of the Grant and Grant Agreement Articles through the Assistance to Firefighters Grant Programs' (AFG) e-grant system. Please make sure you read and understand the articles as they outline the terms and conditions of your grant award. By accepting the grant, you agree not to deviate from the approved scope of work without prior written approval, via amendment request, from FEMA. Maintain a copy of these documents for your official file.

If your SF 1199A has been reviewed and approved, you will be able to request payments online. Remember, you should request funds when you have an immediate cash need.

If you have any questions or concerns regarding the process to request your grant funds, please call 1-866-274-0960.

Sincerely,

A handwritten signature in black ink, appearing to read "Brian E. Kamoie".

Brian E. Kamoie
Assistant Administrator
Grant Programs Directorate

To:  **Peter Flynn**

Hi Peter, I would like to you to, via this email acknowledge the support the Fire Department received from the Highway Department on a vehicle/hay fire we had.

We were call to River Road today for a trailer hauling hay, in which the hay had caught fire. There were a number of large rolls of hay on the trailer, on fire. This is a difficult situation to deal with , since the hay is wrapped tight and burning deep within the rolls.

I called Dick Perusse up asking him if he could provide a backhoe to assist with breaking open the rolls and removing them to a safe place. Without hesitation, the backhoe was on its way along with a dump truck. I am sure Dick had something planned for today did not get done, in his effort to do what he could to help out the fire department.

This is another excellent example of why New Boston is special, any of our Departments is always willing to lend a hand to another Department.

Dan
