Dear Board Members:

As you may be aware, we provide dispatching services for the fire & EMS departments for some towns contiguous to yours and at times your fire department requests mutual aid assistance from those towns. We would like to be able to include the 911 maps for your town in our CAD program so that we can provide better directions to units responding for an emergency. Having access to these maps would save precious minutes for the responders and would mean that we do not have to interrupt your dispatchers when they are already busy handling an emergency call.

NH-E911 has told us that, in order for them to give us this data, we need a release form signed by a representative of the town. If you would be willing to do this, please fill out & sign the attached form & return it to me so that I can forward it to the NH-911 mapping division.

If you have any questions, please feel free to contact me at 352-1291 weekdays. Thank you for your assistance.

Sincerely,

A handwritten signature in cursive script that reads 'Bonnie Johnson'.

## LOCAL GIS DATA RELEASE FORM

Representing the town of \_\_\_\_\_, I give permission for the New Hampshire Board of Emergency Communications (NH E-911) to release the GIS mapping data for my town to Southwestern New Hampshire District Fire Mutual Aid. I understand that this data will be used only in the computer-aided dispatch program for their emergency dispatch center to facilitate the response of fire department mutual aid from their member towns to assist our fire department.
