RE: SNHPC Regional Traffic Counting Program

Dear Mr. Flynn:

SNHPC is scheduled to begin the Regional Traffic Counting Program on April 14, 2014. This year's program will consist of counts at approximately 500 locations scheduled on behalf of the NHDOT and SNHPC member communities. Please give us a list of requested traffic count sites for this upcoming season for special projects in your municipality by March 17, 2014.

We are interested in knowing about any road work your municipality will be doing this season that might affect the traffic volumes. Please include information regarding the road work start and end dates.

Also, SNHPC requests your continued assistance in facilitating the completion your municipality's counts. In previous years, we have sent information regarding the counting schedule to the municipality in advance of individual counts. This has enabled the municipality and SNHPC to coordinate completion of the counts around municipality roadway maintenance activities, such as street sweeping and paving. We ask for your continued cooperation in this regard to enable completion of the 2014 Regional Traffic Counting Program as efficiently and cost effectively as possible.

Please do not hesitate to contact me at [dprece@snhpc.org](mailto:dprece@snhpc.org) or Tim White at [twhite@snhpc.org](mailto:twhite@snhpc.org) if you have any questions or require further information.

Thanks for your assistance.

Sincerely,

SOUTHERN NEW HAMPSHIRE  
PLANNING COMMISSION

David J. Preece, AICP
