

New Boston Transfer Station

2013 Solid Waste Tri-axel Trailer RFP Award

8/14/2013

To the New Boston Board of Selectmen,

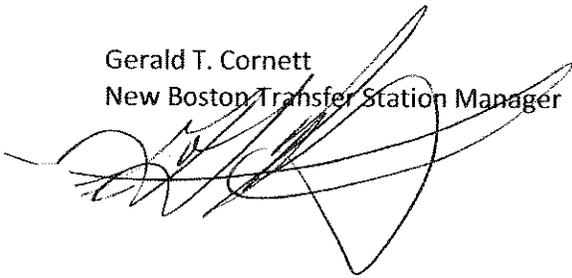

A request for proposal to manufacture a custom Tri-axel Solid waste trailer for the New Boston Transfer Station was sent out to 6 vendors in June. Only two of the contacted vendors "Spectec" and "J and J" responded and both failed to meet minimum build specifications. Both companies were contacted and given a list of the discrepancies with and additional two weeks to submit an addendum.

Spectec Manufacturing did not send a revised RFP.

J and J manufacturing submitted a new proposal detailing the material and build process and met all of the standards of the RFP.

After careful review and having had the opportunity to work with "J and J" in the past with the purchase of a 2007 J and J tri-axel, It is my recommendation to accept the RFP presented by "J and J Manufacturing" of Sommerset PA. for the contract price of \$84,500.

Gerald T. Cornett
New Boston Transfer Station Manager
