NOTICE OF DECISION - Conditional Approval

Planning Board, Town of New Boston

CONDITIONS SUBSEQUENT AND ONGOING:

1. Prior to the granting of any permit, or to the removal of any topsoil or other overburden material from a new area within an existing excavation site, the Applicant shall submit to the Regulator an acceptable bond with sufficient surety as determined by the Regulator. The purposes of the bond are to guarantee reclamation of the area and compliance with the permit. The surety must be phased to coincide with the phasing of work, in an amount sufficient to guarantee reclamation of the applicable section, to be released as sections are completed. Prior to a new section being opened, new securities shall be posted. The surety shall not be released until the Regulator is satisfied that all conditions of the site reclamation plan have been complied with. This shall be determined at a final site walk by the Regulator and/or its designee.
Additionally, if a bond or security is already in place, the applicant is responsible for keeping said security up-to-date and submitting riders, renewals, or other documentation to the Planning Board as proof that the bond or security is in place.
2. **Amendments and Renewals**
Permit holders wishing to alter the size or location of the excavation, the rate of removal or the plan for reclamation shall apply for a renewal or amendment, following the same procedures as those required for the original excavation permit.
3. The Earth Removal permit is not transferable without the prior written consent of the Regulator.
4. A copy of the Earth Removal permit shall be prominently displayed at the site or the principal access to the site.
5. **Inspections**
The Regulator or its designee may make periodic inspections, minimally on an annual basis, of all excavation sites, both permitted and exempt, to determine if the operations are in conformance with the New Boston Earth Removal Regulations and the approved plans.
